

Why does vaccine hesitancy exist?

- 10** *Peptide cross-reactivity: the original sin of vaccines.* PMID: 22652881
- 9** *Gastrointestinal dysfunction in autism spectrum disorder: the role of the mitochondria and the enteric microbiome* PMID: PMC4425813
- 8** *Screening Identifies Thimerosal as a Selective Inhibitor of Endoplasmic Reticulum Aminopeptidase 1.* PMID: 27437077
- 7** *Biopersistence and brain translocation of aluminum adjuvants of vaccines.* PMID: 25699008
- 6** *Increased risk of noninfluenza respiratory virus infections associated with receipt of inactivated influenza vaccine.* PMID: 22423139
- 5** “Both epidemiologic and mechanistic research suggest that most individuals who experience an adverse reaction to vaccines have a preexisting susceptibility. These predispositions can exist for a number of reasons—genetic variants (in human or microbiome DNA), environmental exposures, behaviors, intervening illness, or developmental stage, to name just a few—“ *IOM Adverse Effects of Vaccines: Evidence and Causality (2012)*
- 4** “It’s a stunning discovery that overturns decades of textbook teaching: researchers at the School of Medicine have determined that the brain is directly connected to the immune system by vessels previously thought not to exist.” Josh Barney UVAToday 3/21/16
- 3** The Nuremberg Code
- 2** Regulatory Vacuum, Regulatory Capture
- 1** Parents have reading & comprehension skills
