

# InformedCHOICEWA

PROTECTING OUR MEDICAL FREEDOM

## ABOUT CIC

As a member organization of the **Coalition for Informed Consent (CIC)**, we proudly support the mission of the **Physicians for Informed Consent (PIC)** and their goal to eliminate mandatory vaccination, ensure fully informed consent in vaccination, and educate the public on infectious disease & the immune system.

## OUR GOALS

We support the need for an independent vaccine safety commission, and through education, we strive to bring the current science of vaccine risk into new vaccine designs and new administration policies.

## ABOUT US

*Informed Choice WA is an organization of parents, family members, educators, thought-leaders, medical professionals, concerned citizens, and Washingtonians from all walks of life and all corners of the state. We are a community of people who believe parents have a fundamental right to make informed medical decisions for their children—decisions free from unnecessary and overreaching mandates that compromise our personal, philosophical, and medical liberties.*

## Visit InformedChoiceWA to learn about:

- Personalized Medicine
- The Regulatory Vacuum
- Mitochondria Disorder & Impairment
- Aluminum Adjuvants
- Fact Check: 2017 Senate Meeting
- Upcoming Educational Events
- And much more . . .
